THE RUSH TO KANSAS AND COLORADO. The indications are that the rush to Kansas and Colorado will be greater than ever in 1874. The shortest way to reach the Far West is through St. Louis, the great Mississippi Valley City, of over 450,000 inhabitants, and thence west over the St. Louis, Kansas City and Northern Short Line, which reaches all the great iron and coal fields in the West, and runs six fast Express trains, two more than any other road, between the Mississippi and Missouri Rivers. This road, in the last two years, has expended over two million dollars, besides earnings, in extraordinary improvement of roadway, in relaying its line with best quality of new steel and iron rails, on broad, new ties, and in passenger equipment, having substituted for ordinary cars new rolling chair coaches, with every appliance for comfort and safety, being elegantly carpeted and fitted with dressing rooms, with toilet conveniences for ladies, gentlemen and families traveling with children, free of any extra charge. Any ticket agent selling through tickets to the West will furnish tickets by this excellent route through St. Louis, over the St. Louis, Kansas City and Northern Short Line, the best and shortest to Kansas, Colorado, Nebraska, California and the Great West. It being the only line running through cars between St. Louis and Omaha. For map, circulars and time-tables address either F. A. Palmer, Indianapolis, Ind.; or P. B. Groat, St. Louis, Mo., either of whom will furnish any information desired. Jan 5w

THE GOOD TEMPLARS' LODGE has in it a number of active workers in the temperance reform. We learn that the organization is in a prosperous condition, and that it is doing much good in the way of inducing those who have been in the habit of using intoxicating liquors to a greater or less extent, to abstain entirely from it. New members are initiated at almost every meeting, and the weekly gatherings of the Lodge are made very interesting by the discussion of important topics, and frequently literary exercises are introduced. The ice crop is so plentiful this year that it is a question whether our dealers had not better build new houses and fill them, either for shipping purposes, or to keep over until the next year, so that in the event next winter should not be cold enough to make ice, a stock would already be gathered for home consumption. The project is certainly worth thinking about. By reference to the proceedings of the city council, published in our columns yesterday, it will be seen that insurance agents and real estate and money brokers, are to be required to pay the license for which the city charter makes them liable, the city attorney having been instructed to see that the same is collected. M. Goldberg will soon remove his trading place from his present stand to the room in Ulrich's block, lately occupied by J. M. Ehrman. This is a good stand, and we doubt not that Mr. Goldberg's custom will be bettered by the change. The brick for a new walk in front of the old railroad bank building has been delivered, and as soon as the weather will permit a new brick walk will be put down in place of the old mass of dirt and cinders which has laid there for so long a time. The "coming man" for Mayor has not yet spoken through our columns. The announcement of his name is looked for with intense interest by many citizens, and we trust that the painful suspense may soon be relieved. As yet we have no announcements for Aldermen except in the second ward. Can it be possible that the other wards are to be left in orphanage during the ensuing year? Mr. A. A. Murray is to-day putting in a set of new Fairbanks' Scales at his agricultural warehouse on North Main street. Messrs. H. W. Hill & Co. received to-day 6,000 pounds of wire to be manufactured into hog rings. Regular Meeting—Take Notice.—The regular monthly meeting of the Young America Hook and Ladder Co. will be held on Friday evening, Feb. 5th. All "crusaders" interested in the welfare of the young men comprising this company are earnestly requested to be present. By ORDER. Announcement.—M. K. Hatch, Esq., announces himself to-day as a candidate for re-election to the office of City Treasurer. The entire acceptability with which Mr. Hatch has, for several years, filled the office he now holds, will insure him a triumphant election this spring. No better man for the place can be found. More Property Recovered—Another Thief Arrested.—Mr. D. L. Foster, of Mt. Zion, Captain of the Prairie Hill Detective Company, called at our office yesterday on his return from Illinois, where he had been to assist in looking up some of the missing property which has been stolen in that vicinity within the past two years. He and those accompanying him succeeded in recovering a saddle that was stolen from Mr. Edwards, of Mt. Zion, more than a year ago. A clue to the saddle was obtained last Saturday, and yesterday they found it in possession of Mr. Alex. Dickenson, whose son bought it some time last fall. The saddle had been traded several times before coming into the hands of Mr. Dickenson, but its identity was so fully established that he gave it up without controversy. Another of the Illinois thieves, by the name of Page, was arrested yesterday for stealing a set of harness. Popular Lectures on Physiology, Phrenology, Etc.—On Monday night next Dr. O'Leary is to commence a series of lectures at the opera house, upon the subjects indicated at the head of this notice. The Dr. has previously visited our city in the same capacity, and many of our people will remember the pleasure they experienced in attending his highly entertaining lectures. The press of other cities speak in the most complimentary terms of his lectures, and we have no doubt that the house will be crowded on each evening of his stay among us. Those who wish good seats should go early. R. N. Ham & Bro. are now receiving the largest stock of agricultural implements ever brought to Decatur, consisting of four hundred John Deere plows, three hundred John Deere Advance Cultivators, one hundred Vandiver Corn Planters, all of which they will sell at wholesale or retail, at bottom figures. To Aggravate Dyspepsia introduce alcohol into the stomach, and thereby toll the digestive fluid of its solvent power. Saturate a piece of bread and meat with gastric juice, and it will dissolve. This is digestion. Add to such a mixture a little alcohol, and it will not dissolve. This illustrates indigestion. Beware, then, ye dyspeptics, of tinctures, infusions or decoctions containing spirituous liquors. Shun all such rum "tonics," and rely solely on Dr. Walker's Vinegar Bitters, the finest heretofore known, and free from the fiery curse of alcohol. jan26-4w
